Goal of the fund

Our goal is to enable all investors, without any exceptions, to appreciate their funds in the long term by investing into commercial real estate which they could not otherwise afford to buy. Our conservative approach, careful selection of assets, and professional portfolio management, allow us to achieve attractive yields while maintaining a reasonable level of risk.

Benefits of investing into real estate funds

- Investments into tangible and real assets
- Diversification of real estate assets
- Stable yield represented by rental income from leases
- Possibility to invest in very low amounts on a one-off or regular basis
- Higher liquidity than a direct investment in real estate, as invested funds are available on a monthly basis, including possibility of annuity payments

Value of buildings by sector

54 % Offices
23 % Logistics
9 % Retail
2 % Data Centres
2 % Portfolio of bank houses
1 % Residence
10 % Other

Portfolio layout by country and value
